189 exams have been scored.

These numbers are based on all RN Pharmacology B exams scored for Trusted Health.

\* The Cutoff score indicated above is a Modified or Unmodified Angoff Score. Angoff scores are a statistical indicator of the minimum score which identifies sufficient knowledge and/or performance. Modified Angoff scores are adjusted for unreliablility and/or adverse impact for one or more demographic. We recommend the Angoff score or, if available, the Modified Angoff score, to be used as a cutoff score for performance evaluation.

## **Incorrectly Answered Questions:**

Due to security reasons and copyright protection, we can only reveal the questions you answered incorrectly without the correct answer (only your answer).

Contraindications/Interactions Question:

Your patient has been admitted with Pneumonia. You also note an allergy to Penicillin. Which of the following medications would you question if ordered by the physician?

• ciprofloxacin 500 mg IV q 8 hrs

# Patient Teaching Question:

A nurse reinforces discharge instructions to a postoperative patient who is taking warfarin (Coumadin). Which statement, if made by the patient reflects the need for further teaching?

• "I will take my pills every day at the same time as prescribed by my primary doctor."
